

The NorthWoods Rest Motel, LLC offers you the most affordable, immaculately clean, comfortable, and spacious queen rooms for you to simply relax in during your stay. You will arrive as a guest but leave as family. Beth, Jeff, and Charlie take pride in not only making your stay the most enjoyable in the area but the most memorable also.

Charlie is the owners' Chihuahua Pug who welcomes each guest on arrival.

Being this cute is exhausting.

## Open Year Round

The NorthWoods Rest Motel is centrally located between Eagle River and Minocqua in the beautiful Northwoods of Wisconsin. It is the perfect place to relax and find a quiet spot to read your favorite book or just sit and observe the scenery. We have public access to thousands of acres of state forest land and lakes ~ this gives you great opportunities for hunting and fishing.

St. Germain has an abundance of eagles, osprey, loons, deer and an occasional black bear can be seen if you are lucky. Wolves have also been spotted in the area. Small critters such as squirrels, chipmunks and raccoons abound. For the birding enthusiasts, blue jays, black-capped chickadees and rose-breasted grosbeaks are common in northern Wisconsin.

There are seasonal outdoor activities for the whole family including snowmobiling on the region's best groomed and maintained trails, ice fishing, x-country skiing, snowshoeing, golfing, hiking and horseback riding. There is canoeing and

kayaking in the area as well as the new paved St. Germain Hike and Bike Trail that connects us to the communities of Sayner, Boulder Junction and Manitowish Waters.

St. Germain's flea market is the largest and best attended in the area and is held every Monday from Memorial Day through Labor Day. The community also holds several craft shows and the annual Pig in the Pines™ has become a great favorite for area visitors.

We cater to the sportsman! A fish cleaning area in the summer. Freezer space provided upon request. In the winter, a heated garage is available upon request for your snowmobile maintenance and repair needs.
